We have known each other for us long  
We are most like one  
And the ties of our love are so strong  
They could never be undone

But if you should ever get restless  
Just remember where ever you go

[Chorus:]  
In every smile, every face  
Any time, any place  
I will be there  
Like a light in the dark  
When you look in your heart  
You'll stop and stare  
And I will be there

There are times when you may get lonely  
Feeling lost on your own  
But if there's one thing this love has shown me

We are never alone  
And no matter how far away you are  
My love follows you

[Chorus]

On a cold night, in the moonlight  
When you're dreamin', and when you rise in the sunrise  
Baby, I swear I will be there  
Cause no matter how far away you are  
My love follows you

[Chorus]

I will be there, any time, I will be there

On a cold night, in the moonlight and when you rise, in  
the sunrise  
Baby I will be there
