Rotten houses near the plant  
Slag, refuse are all around  
Acid water, plastic food  
Tasty radioactive fruits

The ignorance of the statesmen  
Leave the crowd between rage and despair  
Contaminated bodies  
Slow decay of blood  
Don't brood over future  
Industry rehearse the perfect kill  
Perfect kill, perfect kill  
Dead don't die, but remain  
Near the heirs of their slaughterers

People want to demonstrate  
Businessmen rule the state

They call them terrorist  
And police rehearse the perfect kill  
Perfect kill, perfect kill  
Dead don't die, but remain  
Near the heirs of their slaughterers  
Fear of the dead  
Perfect kill  
Fear of the dead  
Perfect kill  
Fear of the dead  
Dead don't die, but remain  
Near the heirs of their slaughterers
