"The lyrics to this track were created after an interesting conversation that took place in Athens one day. Maria, a woman of science, and myself talked for a long time about the conflict between science and religion. It is her who takes most credits to this song for which I wish to express my gratitude"

Where faith has failed
Men's mind has travelled
Throughout of space
His wings might fly

No borders for human's
restless desires
Since science killed faith
God even may die

Our dying pride kneeling
In front of the unknown

Where faith has failed
Gott Ist Tot
Where science prevailed
Gott Ist Tot

In front of the immensity
And grace of a universe
With well hidden secrets
That no one has known

With secrets protecting a cosmic curse
When truth seems a lie
And reality a vision

Where faith has failed
Gott Ist Tot
Where science prevailed
Gott Ist Tot
Where faith has failed
Gott Ist Tot

The lights and the colours of planets and stars
Cannot be revealed with simple human's mind

We might step foot on the ground of Mars
But order in chaos we never provide
We might step foot on the ground of Mars
But order in chaos we never provide

Where faith has failed
Gott Ist Tot
Where science prevailed
Gott Ist Tot

Where faith has failed
Gott Ist Tot
Where science prevailed
Gott Ist Tot - God is dead
Where faith has failed
Gott Ist Tot - God is dood
Where science prevailed
Gott Ist Tot - God is dead
Gott Ist Tot!
