You came to this world
To see what I've done
And it's fine

So come and let's start
I'll give you all my heart
This time

Don't walk away
Cause baby I will love you more
I have this feeling
You're who I've been looking for
So close your eyes
And read the signs
It's time to sore

You came to this world
To change what I've done
It's all right

But now you must stare
You can pretend you're there
If you're mine

Don't walk away
Cause baby I will love you more
I have this feeling
You're who I've been looking for
So close your eyes
And read the signs
It's time to sore

Don't walk away
Cause baby I will love you more
I have this feeling
You're who I've been looking for
Don't turn away
It's time to stay
There's nothing more
