Live it up
Everybody, live it up
You got to give it up
Live it up
Don't give it up
Let's live it up
You got to live it up
Let's live it up

The place you'll rather be
Then right here, wanna party with me
Forget your troubles, forget your cares
Let the music take you there

You'll move your body and I'll move mine
Closer together, love is right on time
A time for work, a time for play
Forget your troubles, it's the only way

Live it up (ooh)
Everybody, live it up
You got to give it up
Live it up
Don't give it up
Let's live it up
You got to live it up
Let's live it up

Listen, ha!
Let me show you what I have in mind
Express yourself, have a real good time
Don't let the hard times get in the way
Gotta let the music play

Everybody, fall in your groove
And watch the music make the whole world move
A time for work, a time for play
Forget your troubles, it's the only way

Ow! The party, yeah
Ooooh... let's live it up
Live it up, live it up

[Rap]

My name is Jacqui and I am romance
I love to sing and I love to dance
I'll make you feel like a man before I'm through
They're ought to be in love is what I do
There will never be a law against with you, darling
My name is Linda, though I am new
Definitely here to entertain all of you
Everybody? Everybody
Oh, Vera. Yeah, that's my name
Oh, Vera. You know I love to sing
Let me tell you one thing, ha, ha, ha, ha, ha, ha!
Hey, girls! Huh? Rock out, rock out
Hey, girls! Huh? It's your night, live it up
