There is no heaven and no hell in which to burn  
Don't need your prayers or saving I'll redeem my own  
False hope and empty lies they make no sense to me  
Your Bible is your brain I'm not an invalid

My conscience is always clear  
I'll never confess my sins  
The cross no longer gives life  
Your reign of power is over

Cast down from heaven I lead the hordes  
Unholy war of evil total hate  
Sworn to the black the symbol of fear  
Chaos and mayhem is the life I live

Torment the holy that is my game  
I vomit on the lord the king of kings  
Witness of christ yes I despise  
Repressed emotions of a psychopath

Repulsive servant of christ will die  
For I possess the numbers 666  
Impeled by evil my nemesis  
Mortally wounded now your reign is dead
