Evil riffs, chaotic leads  
Making my ears bleed  
Double bass and roto toms  
Headbang'n till the dawn

Fight, forces of metal will fight  
Destroying with all our might  
The witching hour attack  
Metal forces of the black  
In the pit is where I dwell  
Thrash'n and rais'n hell  
Crank the volume, dive from stage  
Releas'n all my fuck'n rage

Celtic frost, Kreator, Possessed, Nasty  
Savage, Mecryful Fate, Slayer, Whiplash  
Sodom & Venom, Razor, Destruction!

There's no end to metals night  
We will kill and we will fight  
Mess with me your life is through  
I'll beat you fuck'n black and blue

Feel the power, feel the force  
The metal hordes will take control  
Smash'n all the poser bands  
Fly'n V right up their ass
