Its time to go inside and play, my daily escapade  
Taking pleasure in your pain, lets start the game  
You try to close your eyes, as I invade your mind  
Depriving your sweet sleep, its time to feast  
Rapid eye movement, with your eyes wide open  
Your body trembles, as panic takes over  
I am your master, indulging in sin  
Voluptuous servant  
The dagger at your throat, caresses your breast  
Temptation can't resist, nails sink into your chest  
Infernally torment, oppress until I'm content  
Soul is for my raping, body for my taking  
Abuse and defile you, ritually abuse you  
Furious copulation  
Psycho-Sadistic-Psychosis  
Pleasures of flesh

No one can save you now, your cross is of no use  
Damned, you'll suffer, everlasting exploit  
I am the serpent, coiled, prepared to strike  
I'm the cold blooded demon, who fills you with fright  
The venomous fangs pierce your gentle pure flesh  
My poison circulates, your arteries
