I prey upon, inflicting pain, the forces of deceit  
Thriving on hypocrisy, your rule I will defeat  
Back stabbing bastard, your unrelenting lies  
The end is near, the time has come  
For you to fuck'n die

Tormenting cancer, I obliterate  
Genocide, of your kind, is the only way  
Infernal hate, for revenge is mine  
In the name of vengeance, I will take your life

With blow to blow, and eye for eye  
I will destroy thee, 100 fold  
For I'm the terror, the one you will fear  
Self preservation, the highest law

No longer living, so rot amongst the dead  
Your damned oppression, vengeance my nemesis  
Decaying carnage, the maggots will feast  
For powers of darkness, will dominate
