The Reaper's incarnate, cross my path  
Malediction, cursed, mortal wrath  
Deadly visions surge, subsequent  
Whose the next to die, my sixth sense

Wraiths are menacing, tragedy  
Every nerve, every, sensory  
Forsaken next step, victims death  
Suicidal fall, his last breath

Galloping, the 7 horsemen ride, waging their war within  
my mind  
Morbid visions, invade my sleep, for death will follow,  
yes death it follows me

Pulsating, rapid, eye movement  
Whose been chosen to, perish next  
Shortest straw you choose, life forfeit  
You're the next to die, my sixth sense
