

## Ritual Carnage "World Wide War"

The keepers of the free world forces, the orders we  
accept  
Defenders of humanity, the weakened ones depend  
A warlord has arisen, ruling with an iron fist  
Slaughtering the non-believers, the terror must be met

World wide war, for combat we descend  
World wide war, we fight until the end

Deadly havoc, genocidal, exterminating man  
Massive graves and ethnic cleansing, apocalyptic land  
Threatens to consume the masses, the boiling point is  
reached  
The superpowers at alert, bloodshed shall never cease

World wide war, with violent force we strike  
World wide war, our victory in sight

A call to arms, the time has come, the tyrants  
overthrow  
Striking with the force of thousands, a violent dealy  
blow  
Air superiority, the seas we dominate  
Nothing shall deter our progress, for victory our fate
