You're shifting gears again  
You're changing lanes  
I'm looking for street names  
But they're all the same  
We're headed for dead ends  
And one way streets  
So I just sit back  
And let things be

You're falling asleep at the wheel  
You're fading fast  
You're swerving out of your lane  
I think we're gonna crash  
We're headed for twisted metal  
We're headed for broken glass  
I think from where I'm sitting  
I have to watch it pass

(chorus)  
I'm in the back seat  
I'm watching you drive  
I'll take the back seat  
Along for the ride  
I'm in the back seat  
I'm watching you drive  
I'll take the back seat  
On this long, long ride

And I see right now  
We're headed nowhere fast  
Should've known when you drive like that  
You're gonna finish last  
I'm leaving, I'm stealing  
I'm hitching a ride  
There's only one way out of here  
And no one gets out alive

(Chorus)
