All for a trait, you mother fucker's hate
Drag a black guy, my oh my.
Burn the U.S. this, this world is a mess,
We must stand united, we must fight it!

[Chorus]
We're all the same!
There's nothing but shame! [x2]
(from me and you!)

*Black, white, yellow, red
None of them should be dead.
Fuck racism, fuck hate there's nothing to debate.
It's one big trend, we'll fight it till the end
Put our foot down, stand our ground.*

[Chorus twice]
