Your book of maps was so complex
I followed random dots on your chest
You drew a map to your nest
Like some sort of cartographer
I found your borders
but they weren't in the books

I'm USA and you're Canada
You're on Top of me with no
Language barrier

A neglected and much varied
genre of great exploration books
I found in the hay
But you're nothing like
what they say

I'm USA and you're Canada
You're on Top of me with no
Language barrier
I studied the anatomy of scars
and dots from neck to knee
And I'm USA and you're Canada

(Mokujin wins again)
It feels like nothing ever will
It seems like time is standing still
It's unlike anything I've done
But dare I end it while I'm young

Now I'm USA and you're Canada
You're on Top of me with no
Language barrier
I studied the anatomy of scars
and dots from neck to knee
And I'm USA and you're Canada
I studied the anatomy of scars
and dots from neck to knee
