"Land Of Giants"

Visit "[Land Of Giants](#)" on MotoLyrics.com

Iâve been searching in the streets
For someone I recognize
All I see are those giants

I look back and see the light
Watch the path and memorize
Iâve been running from those giants...

... I canât live indoors

Giants all around
They destroy when touch the ground
Hide you car and stay under it

Look around and see the crowd
Do you see me crying loud?
You are wrong my friend cause...

... I canât live indoors
But I never would be able to live outside, no
Show me something more...

This is a land of giants
Iâm sick and tired of all those giants
I can't get rid of those giants

I can't be living with the giants
