VERSE 1:

If you listen- then this here sounds peculiar

I'm not tryna fool ya- this is real

Not a joke or a fluke- just for fan appeals

Or for getting record deals- this is what I feel

To my foes and to those that hate me

Who suppose my flow will 8-6 me

If ya look in the dictionary- definition of an enemy

An unfriendly opponent

Who hates- and seeks- to harm & cause trouble

To someone else- yea they made my life difficult

Made my heart buckle like knees- in the cold

To stop my succession to getting' checks in indigo

And then to go- further to stain my name

But the bond that we have- much more than that

I'm in love with them, keep em' in contact

Even if I don't call, they al-ways comin' back

In the Bible- it says that you never worship idols

But to love God & everyone in the cycle

That applies- to the good & to the bad

Nothing touches the bond adversaries & I have

see- they the ones that made me

have a harder backbone- to sit up on a throne

use my wits- just to get out of they business

by the time i finished though, half my heart was cold

Chorus:

I'm in love with my enemies, I'm in love with my
enemies

cuz they pain made me- just a little bitter

but tougher than i used to be

I'm in love with my enemies, I'm in love with my
enemies

cuz they pain made me- more appreciative

of the love ones around me

VERSE 2:

The reason- I feel so deeply- for opponents

Is because I see the way they are- in regards

To me- make my life stressful

Keep my fruit barren- so I'm unsuccessful

Shoot me down then- I'm sprawled on the floor

Waiting for me to say- no please no more

But when they press me- my heart gets tougher

More opt to grudges- persona gets rougher

But I admit- I have no choice but to marvel

Hate me so much- hope I don't see tomorrow

But as I rise- they continue on in sorrow

Just like a drunkard chuggin' bottle after bottle

Adamant in they cause

I admire- how they workin' on my downfall

in a tedious percision- pickin' every flaw

keep they eyes on me- closely very long

closin' in on me- every second passin' gone

They don't know- to my life- played important part

the evil thoughts taught me how to control my heart

Made me meaner- to everyone that wanna start

Time to split the hook apart

Chorus:

I'm in love with my enemies, I'm in love with my
enemies

cuz they pain made me- just a little bitter

but tougher than i used to be

I'm in love with my enemies, I'm in love with my
enemies

cuz they pain made me- more appreciative

of the love ones around me

Verse 3:

They made me more rugged- camouflage fighter

More intelligent approach to when I make the toast

To them sittin' at my table- like Jesus

Sittin with the 12 disciples- see the traitor

I know when his time is able- no investigator

Needed- to sniff out the fiend &

He's in my midst- tryin' steal my ham

Absolute despise me- bitin' at my hand and

I've learned to treat hate with love

ya hungry- feed ya if I got it

Need a little something' stick it in ya pocket

To get you to the next block- but you'll never see the
treasures

Stored for my love ones- not a drop

Of gold, of silver, of diamonds or liquor

Won't be a part of that- your not up in the picture

Take care of you tonight- God gives me emotion

Get my mercy now- we're still foes in the morning'
Chorus:

I'm in love with my enemies, I'm in love with my
enemies

cuz they pain made me- just a little bitter

but tougher than i used to be

I'm in love with my enemies, I'm in love with my
enemies

cuz they pain made me- more appreciative

of the love ones around me
