Smiling there by my side  
Easing all the pain I have inside  
You wanna cry with me  
You wanna sing with me  
You kiss me and you make me see

I see the things I can't imagine  
And the feeling keeps on coming  
When I wake up each morning  
I wanna see your face

[Chorus:]

Coz you brighten up my day(days...)  
The feeling grows everyday(everyday...)  
Coz i know that you know that I  
Wanna be with you,feel you  
I wanna see you, I need you  
And I know  
I know I'm in love

Hold my hands ang never let it go  
Head on my shoulder place it nice and slow  
You say the magic words  
That make my heart beat fast  
I love you  
And it's all I got to do

I see the things I can't imagine  
And the feeling keeps on coming  
When I wake up each morning  
I wanna see your face

[Repeat chorus]
