Now I won't stand before you, preach and bore you.
With such little time.
People walking round the world wearin'
The weight of the world on their shoulders may never
know,
It happens!
Give me something solid to hang onto,
Until the better way, it comes.
People walkin' round the world wearin'
The weight of the world on their shoulders may never
know.
It happens!
Lonely . Isolation. It grew stronger.
It took me away.
People walkin' round the world wearin'
The weight of the world on their shoulders may never
know.
Shit happens!
Listen to me! All things Come To Pass.
Now should've remembered...
All things Come To Pass.
All I want for you to know I care.
Give me something solid to hang onto,
Until the better way, it comes
People walkin' round the world wearin'
The weight of the world on their shoulders will never
know.
Shit happens!
Listen to me! All things Come To Pass.
Should've remembered...
All things Come To Pass.
All I want for you to know I care.
Lonely. Isolation. It grew stronger.
Takes my breath away.
People walkin' round the world wearin'
The weight on their shoulders may never know.
Shit happens!
Listen to me! All things Come To Pass.
All I want for you to know I care.
