"Meltdown"

We don't gotta lot to say about the things that never
happen or the things that do
But you're playing with a fire that you can't put out!
Conventional powers worked and seemed a lot more
safe,
Maybe there's something to be said for tradition after
all!
You had the right to live,
Now you're old and don't give a shit!
Subconsciously fill prophecy,
The end is what you'll wanna see now
No! Meltdowns go away!
No! Meltdowns go away!
No! Meltdowns go away!
No? Meltdowns don't go away!
