\*Monica\*

Set yourself from a movie screen  
Playin your part to be anything  
Know what I mean?  
It's all about right  
It's all about wrong  
About you and me and how get long  
You've got to wake up  
Work hard and take a deep breath  
Open your heart and never forget

You gotta fly,  
Brake the chains that bound you to the ground and  
Try, to let it go be happy with what you found  
Fly, mend your broken wings so you can take flight  
If you wanna go I go there with you  
You gotta fly

You gotta fly,  
Brake the chains that bound you to the ground and  
Try, to let it go be happy with what you found  
Fly, mend your broken wings so you can take flight  
If you wanna go I go there with you  
You gotta fly, yea just fly

I remember walkin down Rodeo Drive  
When I was younger  
I used to push the limits in life  
But when I grew something changed inside  
I saw the color of money take over so many lives  
I know alot of us would like to believe  
But there's too many of us  
Thats parted by prejudice  
When you look in the mirror who do you see?  
Here is somebody else so who you really wanna be

You gotta fly,  
Brake the chains that bound you to the ground and  
Try, to let it go be happy with what you found  
Fly, mend your broken wings so you can take flight  
If you wanna go I go there with you

You gotta fly  
You gotta fly,  
Break the chains that bound you to the ground and  
Try, to let it go be happy with what you found  
Fly, mend your broken wings so you can take flight  
If you wanna go I go there with you  
You gotta fly, yea just fly

Not always easy  
Livin in a world of pain  
Got me runnin in the brick walls again and again  
You say you need a break and a change  
From this life

You gotta fly,  
Break the chains that bound you to the ground and  
Try, to let it go be happy with what you found  
Fly, mend your broken wings so you can take flight  
If you wanna go I go there with you and I  
You gotta fly

You gotta fly,  
Break the chains that bound you to the ground and  
Try, to let it go be happy with what you found  
Fly, mend your broken wings so you can take flight  
If you wanna go I go there with you tonight

You gotta fly  
Break the chains that bound you to the ground and  
Try, to let it go be happy with what you found

Why, would you wanna be anywhere else  
When you can fly  
Spread your wings and fly  
yea Just fly

You gotta fly,  
Break the chains that bound you to the ground and  
Try, to let it go be happy with what you found  
Fly, mend your broken wings so you can take flight  
If you wanna go I go there with you and I  
You gotta fly, yea just fly
