Visit "[Last Cards](#)" on [MotoLyrics.com](http://MotoLyrics.com)

When I look around me  
I see people running away  
From what they really believe  
From what they truly think  
I guess that's safer  
Than risking your whole future  
For one chance at happiness  
Just one chance at bliss

Chorus

I said babe  
Won't you care for me  
If this world gets through with me  
And if I'm not everything I hoped I'd be  
You see I just can't turn around  
You see I've let all ride  
And I'm just waiting on the last cards to reveal myself

So hear we are now  
I've got no regrets  
Somethings I can't remember  
Some lovers that I'll never forget  
We made a few promises  
When we headed down this road  
We said we never give up  
And find a way to make it on our own

Chorus

So take a deep breath now  
We're going over the edge  
Yeah we're gonna make it babe  
No matter what they've said  
We've had a lot of things  
Try us for who we are  
Some things that reached inside my soul  
And pulled out a man  
That I thought was long dead, buried and cold

Chorus
