Come around to the devils den  
Where the liars wait  
Never bite that silver tongue  
So it lashed away  
Like a junkie on a sideways bends  
I'm always near the end

Pre-Chorus

We'll...I know you've been cheating and lying  
You make me feel strange

Gonna tell the truth to see  
But it's gonna change  
Spider mouth at the witching hour  
Has got a lethal spray  
I'm feeling like a poisoned fly  
But I'm never getting off this wall

Pre\_Chorus

Chorus

You make me feel strange  
So wicked and out of place  
Oh babe  
You know I never be  
And I'll never stay

Gonna see it's everywhere  
When you look around  
Gonna crawl across the floor  
To pass the sickness down  
She'll tell you the pallor the skin  
The more truth is found

Pre-chorus

Chorus
