"Sometime Love"

When you fall for a love that you'll never possess
It only bring unhappiness
How can it ever be right
When you're finding yourself alone at night?

I am waiting
I'm just a sometime love
I am waiting, yeah
I'm just a sometime love

Says that other man doesn't mean a thing
She's under the weight of a diamond ring
How she longs to be free
We'll be together, just wait and see

I am waiting
I'm just a sometime love
Yes, I am waiting, waiting
I'm just a sometime love

Long my days and dark my nights
Tick tock of the clock with the lights up bright
Shades of the blues to come
You givin' your love, she's gettin' it on the run

I am waiting
I'm just a sometime love
Yes, I am waiting, waiting
I'm just a sometime love

Oh, I am waiting, yeah
I'm just a sometime love
Yes, I am waiting, waiting
I'm just a sometime love
