"Tired of Talkin'"

Visit "[Tired of Talkin'](#)" on MotoLyrics.com

Baby I'm out of breath, we're talkin' ourselves to death
And nothing seem to change, maybe it's best if we
parted
It's like the blind leading the blind
We're even further behind then when we started
I'm tired of talkin', guess it's time to go

Baby I'm so confused and feeling a little bruised
When all we do is fight, we can't help but feel down
hearted
It's too much like the blind leading the blind
We're even further behind then when we started
I'm tired of talkin', guess it's time to go

Baby I'm out of breath, we're talkin' ourselves to death
And nothing seem to change, maybe it's best if we
parted
It's too much like the blind leading the blind
Even further behind then when we started
I'm tired of talkin', guess it's time to go
