Tell me, tell me I'm your man
There's a need inside of me
For love and understanding
Standing at your door and feeling in trouble
Don't turn away, baby, I'm your man

Hold me, hold me until I smile
I need to feel the touch of your hand
If only for a little while
Once upon a time we made a promise
Don't turn away, baby I'm your man

All that love, when love was new
We held our hearts in each other's hands
I gotta love that flows with the seasons
Baby, I'm your man

Kiss me, kiss me a long, long time
I need to feel your lips pressing up close to mine
Once upon a time we made a promise
Don't turn away 'cause baby, I'm your man

All that love, when love was new
We held our hearts in each other's hands
I gotta love that flows with the seasons
Baby, I'm your man

Tell me, tell me I'm your man
A need inside of me
Love and understanding
Standing at your door and feeling trouble
Don't turn away 'cause baby, I'm your man
Ooh baby, I'm your man
