I walk alone beneath the stars  
I hear you - inspiration's calling me  
And I thank you on my knees  
For the way you make my life complete

Yes I know that life's unsure  
I give my heart and soul to get it right  
But if anything goes wrong  
I always know my heart will carry on

Oh I believe in you  
The strength is on my side  
You help me thru' and thru'  
And give me back my pride  
This song you hear I dedicate to you

Oh God she's always on my mind  
She's the girl that was so hard to find  
Never felt like this before  
She's the one I will love forever more

I feel that this is meant to be  
Never knew she had so much in store  
And if time is on our side  
I surely know my heart will carry on

Oh I believe in her  
The strength is on my side  
Now I can face the world  
And split the wrong from right  
The feeling grows  
I'm finally coming through

There were days  
When all these words were hard to find  
Living in this world without a friend  
How hard I tried - they got in the way  
I could never sing till the end

But I still believe  
That I catch the magic sound

I just won't give up trying  
Till you are around

Love left you - would I ever start again  
(Fighting for an answer)  
So lonely - reach out for a helping hand  
(Living without your love)  
No one can hear me - no one will fear me  
I'm so shy - I wonder why

Living in a home without a heart  
I thought of moving out  
I've been waitin' for a brand new start  
Now I can face the crowd

Oh you tried to get along  
(Everything went wrong)  
Nowhere to belong - wasn't easy to survive  
Yes so hard to carry on with a fear so strong  
Like you're losing all the time

Give it - no - give it - no  
Give your soul and you'll be free  
Give it - no - give it - no  
Then we'll never let it be  
Will you still be there  
If you do believe in this dream  
You know it's plain to see  
(You and me)  
Go - go

Love so strong - here's where I belong  
And I leave the fears behind  
Till the end of time

And I'm sure I'll find my way  
'Cause I know the words to say  
Yes I'm sure it won't be long  
'Cause I know I'm not alone

Oh I never - no I never  
Oh I never lose my faith in you  
I believe in you
