Always and forever is forever young  
Your shadow on the pavement  
The dark side of the sun  
Gotta dream the dream all over  
And sleep here tight  
You don't wanna sing the blues  
In black and white

And it's hope that spring's eternal for everyone  
If it ain't broken then brake it, oh, the damage done

Trying to love somebody  
Just wanna love somebody right now  
There's just no pleasing me  
Trying to love somebody  
Just want to love somebody right now  
Lady lay your love on me

Violet in the rainbow just melt away  
There's not enough minutes in the hour  
Or hours in the day  
The song played in a circle that never skips a beat  
The stranger in a country that I have yet to meet

And it's hope that springs eternal for everyone  
Got a lifetime in a second oh the damage done

Trying to love somebody

Just wanna love somebody right now  
Guess there's just no pleasing me  
I want to love somebody  
Just want to love somebody right now  
Lady lay your love on me

It'll come in your sweet time, Lord  
I just gotta let you in  
The blind leading the blind, Lord  
Getting underneath your skin  
I can feel you in the silence  
Saying let forever be  
Love, only love, will set you free

I wanna love somebody  
Wanna love somebody right now  
There's just no pleasing me  
I wanna love somebody  
Just wanna love somebody right now  
Lady, lay, lay your love on me

It'll come in your sweet time, Lord  
I just gotta let you in  
The blind leading the blind, Lord  
Getting underneath your skin  
I can feel you in the silence  
Saying let forever be  
Love, only love, will set you free
