Dont fight the feeling relax,
Oh child the knots are in your back,
cuz' you've been holding on,
I feel you when you are reaching out

I'll talk you through memories,
just keep breathing with me,
It's time to hold my hand,
And walk in to the revolution,

And there's no one to touch,
And you've been thinking too much,
You only hurt yourself,
When it's all about retribution

I see the pain in your face,
And praying with of the space,
Its time to lead you on,
Come on, into revolution

And you can't keep on keepin' on,
And everything you lead upon is all but gone,
Everybody falls sometimes, but love shines on

And on And on And On...

With love in your eyes,
With a flame in your heart,
Gonna find yourself some resolution

A million miles with one step

You'll find yourself yet

Walking with the revolution

Get it on get it on get it on get it on

Talk about a revolution

Get it on get it on get it on get it on

Rockin' with the revolution

Get it on get it on get it on get it on'

Take you high yeahohh...

Oh love lingers on,
Just feeling upon,
I know you're tired,
When it's time to sleep,
You come forever

Make friends with your past,
And you can leave it at last,
It's time to run yourself,
Walking with the revolution

And you cant keep on keepin' on,
And everything you lead upon is all but gone

All but gone

(R)Everybody hurts sometimes,
But love shines on

And On AND On And On

Time and tides on your side,
There's no need to hide,
I feel your pain,
Dont talk to me about evolution

A milion miles with one step,

You'll find yourself again, When you're walking with the
revolution

Walking the the revolution

A milion miles with one step
And you'll find yourself again, When you're walking
with the revolution

Get it on get it on get it on get it on

Walking with the revolution

Get it on get it on get it on get it on

Can't warn you of the revolution

Get it on get it on get it on get it on

It's all about resolution

Get it on get it on get it on get it on

Talk About the revolution
