Was a stranger to myself
I lost my grip but I could not tell
I couldn't live for a love
A love so unreal

An open door as the time will tell
Won't ask for more - only make me well
Just wanna live this dream
So the wound can heal

Then all at once I had you on the line
I hardly realised
After a while we shared a feeling so fine
I'll never forget that night

Angel - angel - see me down on my knees
Beg my way through my tears
Angel - angel - I love you

Feel so alone while you're far away
I say a prayer - hope our love will stay
Don't wanna lose you girl
I need you right here

I close my eyes and I think of you
Longing for you like I always do
Oh how I miss you so
Why can't you be near

Like in my dreams we held each other tight
But now you're out of sight
I never knew someone like you before
I'll never forget that night

[Chorus]

Why do you still feel so unsure
You just can't go on
At night I lie awake
But whatever it takes - I will wait

Angel - angel - see me down on my knees

Beg my way through my tears
Angel - angel - I want to be with you
Nothing else I wanna do
Angel - angel - see me down on my knees
Babe I'm begging you please
Angel - angel - I love you
