Dreaming - I get by when I'm dreaming
Feeling - all the memories I'm keeping

Most of my wishes have seen the light
But I'm still not done
Somehow I don't see the stars at night
Like the magic is gone

Down in the middle of a broken dream
I'm changing inside
Where's the key to my world
Wish I was living up my memories
There are no goodbyes - nothing at all

Feeling - life has changed every meaning
Seeking - for some love to believe in

I long for the time when I had my dreams
When I was young
I lived by the spirit of fantasies
But now the magic is gone
