I was in love
But you surely broke my heart
You let me down for somebody new
I had it all
But now we are torn apart
I lost myself when I lost you

I try to forget
Though I know you're still out there
So I can hardly live my life without you
Without you

One day love is gonna find a way
One day you will remind me
One day - will I ever be the same
Someday love is gonna touch my heart
Someday love is gonna touch my heart

It was a dream
A dream I was living in
Why did it stop
Ended so soon
I was a fool
While we were livin' in sin
Now you are gone
Can't get over you

I have to forget
But the feeling's still so strong
No I can never live my life without you
Without you

One day love is gonna find a way
One day you will remind me
One day - will I ever be the same
Someday love is gonna touch my heart
