[Intro:]

Baby (ohhh ohhh)

You know they say you never miss what you got till it's  
gone

An now that your gone I realize that your love is my life  
An I need it

[Verse 1:]

Baby we been thru some things an I know

It's probably all because of me

But you held it all inside an you smiled

But now your fed up an wanna leave

An now that you wanna leave I realize

Your the reason I can breathe

[Chorus:]

An I know I wasted your time wish I could rewind

Is there a way to change your mindddd?

Ohhh ow... promises are made to break

Yes I made mistakes

But what can I say I'm only human

I apogilize for each an every lie

Don't make me pay with my life

Please don't leave me all alone

Don't think I can make it on my own

I'm not worth a thing without you here with me... in my  
life

You said that you loved me an you cared

Then how could you up an leave me here

Your love is the reason why I live

An I... don't wanna die

[Verse 2:]

Now baby can we talk it out one more time?

You said we already talked too much

But my body's getting weak an I'm fading

Just from the thought of loosing your touch

The very second that you leave it's all over

I'll never make it without you

[Chorus]

[Hook:]

An baby if you stay... I'll change

I see the air of my ways my way

Once was blind but now I see an I hope it's not too late
