Like a stone
You can't hurt me
Like that old oak tree
I'm as strong as I can be

Like that clock that moves
But goes nowhere
I know just when it's time
For me to leave

So this love affair is all over
And it's alright with me
It's hard to make
Nothing go anywhere

It's never really
Mattered much to me, me
It's never really
Mattered much to me, me, me

So this love affair is all over
And it's alright with me
You just can't make
Nothing go anywhere

I've made up my mind
It's time for me to leave

It's never really
Mattered much to me, me
It's never really
Mattered much to me, me, me
