Time makes two love,
Makes them more than friends.

Time makes true love,
More than just pretend.

Makes you count the nights,
and the moments we're apart.

Time will heal your troubles,
when you got the blues.
Heal the burnin' heartache,
but your right back in the groove.

But time will take it's toll on you,
if you don't play it smart...

Because time it makes to,
it takes two to heal a broken heart.

Time makes two love,
Feel eachother's pain.
and I'm so proud of you love.
So proud to be your man.

Time makes two.
Oh, time makes two.
Time makes two.
Yah know, time makes two, it takes two
to heal a broken heart.

Time makes two, it takes two,
to heal a broken heart.

It makes you more than friends.

Time makes two, time makes two.
Makes you feel eachothers pain.

Time makes two, it takes two,
to heal a broken heart.

Makes you more than friends.

Time makes two, it takes two,
to heal a broken heart.

Time makes two,
Time makes two,
Times makes two...

Time makes two,
Time makes two...
