In love with a broken heart  
You fell in love with a broken heart

Love in these modern times  
There'll be someone new every night  
With some other love yarn  
To wrap my harms around  
No one else can understand

(Hold me)  
I can't hear you  
(Trust me)  
Not about you

In love with a broken heart  
(Think I leave today, cover it all this way)  
You fell in love with a broken heart  
(Every earthly breath, lifeless testimony)  
In love with a broken heart  
(Don't you know?)

Love in these modern times  
I'll become what your first class said  
I'm no light weight, I'll find time to throw us down  
You'd feel my medicine's side effect  
Fink I'll grab some magazine

(I know you)  
Never seen me  
(Promised you)  
You believed me?

In love with a broken heart  
(Think I leave today, cover it all this way)  
You fell in love with a broken heart  
(Every earthly breath, lifeless testimony)  
You fell in love with a broken heart  
(Another lifeless testimony)  
(And it shows)

Oh, please machine, let's keep this terminal clean  
I say, I'll see your face in every cloud

Down a Dewar's laugh out loud  
Fly girl shouts to keep it down  
Paddy's wagon draws a crowd

(Save your days)  
I don't save days  
(Any way)  
I think, leave days

God grant me the strength  
To accept the things I can change, change them  
(Just for the last time)

God grant me the strength  
To accept the things I can  
(Just for the last time)

God grant me the strength  
To accept the things I can change, change

(Show me)  
I can't miss you  
(Change)  
Change, yeah yeah yeah yeah

In love with a broken heart  
(Face in every cloud, makes me laugh out loud)  
You fell in love with a broken heart  
(Shouts to keep it down, wagon draws a crowd)  
In love with a broken heart  
(In these modern times, what your first class said)  
(Time to throw us down, medicine's side effects)

You fell in love with a broken heart  
(Said you never see me, not that you'd believe me)  
(Blast your masterplan, I don't [Incomprehensible])  
In love with a broken heart  
(Tell the situation, gets me to the station)  
You fell in love with a broken heart  
(And it shows)

I think I'll burn that bridge when I come to you  
I'll burn that bridge when I come
