Stick the knife right in
Blood is running red
Cut the stomach right
I start to crawl inside

Pull the skin apart
Now it's getting hard
Start to slip right in
Blood is getting thin

See the world surround
Watch the bloody ground
I put her in the ground
My come is all around
Put my finger in
It's just a little thing
When I take it out
It's in her bloody mouth

Make my dying bride
I part the bloody hide
Put my dick right in
Her cum is getting thin
