All you that stand before the dawn  
All you who walk the path of god  
Black coat that casts a shadow falls  
All you that stand before the dawn

Satans cross points to hell  
Satans cross points to hell

All you that ????  
All you that feed upon the pain  
Black coat hoods into your flame  
All you that play the endless game

Satans cross still points to hell  
Satans cross points to hell

Satans cross points to hell  
Satans cross points to hell
