Hell it comes
Bitch in black
Headless serpent
The darkest path
Triple steele
Thunder roll
Hell it comes
Bornless cold
Hell it comes
Damned whore
Got a belt
Made of human skulls
Cut you right
To your bone
Hell it comes
On a hades stroll
Revengeful
Lo it came
Lo it comes
Hungry cold
It likes the bloody taste
Of love
Bitch in black
Blackest known
Hell it comes
Lo the hungry cold
Revengeful
Lo it's name
Revengeful
Lo it came
Deth red moon
Long
Are the twisted vines
Growing and knarled inside
Look and you'll find
That they never die
Long
Are the twisted vines
Deth red moon
Going down
Deth red moon
Burning down

Cold
Is the wailing night
Gone are the tranquil skies
Look round you'll see
All the longing eyes
Cold
Is the wailing night
Deth red moon
Going down
Deth red moon
Burning down
And there's no escaping
From this hell it's making
And there's no escaping now
Deth red moon
Going down
Deth red moon
Burning down
Ju ju bone
Gon' get my ju ju bone
Put you right
Gon' get my ju ju bone
Take you down
Girl
I think you got trouble
I think that it's time
Gonna get my ju ju bone
Take you down
What in the hell
Wanna make a man
Have to
Break you off a little some
Of my ju ju bone
How many time
Wanna make a man
Take out his ju ju bone
How many time
Wanna make a man
Take out his ju ju bone
Girl I think you got trouble
Girl I think that's it's time
Gonna use me my ju ju bone
And take you down
What in the hell
Wanna make a man
Have to break you off a little some
Of my ju ju bone
