Verse 1:

It all came to an abrupt end
That mid morning in July
With tears rolling down my face
We said our last Good byes
At the end of the drive
I watched as you pulled away
Hoping you'd turn around
And tell me that you'd stay

Chorus:

Love me then you leave me
To face this world alone
How could you> walk away
From a love so strong
Lord knows I've tried
I gave you my best
But if it's blood you wanted
I guess I failed love's test

Verse 2:

6 months have passed
And still you are gone
But before my heart can heal
Please listen to this song
You left some things behind
When you walked out of my life
Like 9 years of memories
Of when you were my Wife

Repeat chorus

Verse 3 or bridge:

I gave you everything
That a loving man could
And if that isn't enough
Your heart just ain't good

Repeat chorus
