"Summer Song"

Visit "[Summer Song](#)" on MotoLyrics.com

The tender grass of spring time
Rose to grain with summer's heat
The orchard blossoms ripen
Into fruit so round and sweet

As with nature in her garden
So it is with all and one
Love may blossom in the spring time
But it blooms with summer sun

As with nature in her garden
Full with light the days are long
Softly evenings pass together
As we sing a summer song

A vineyards fragrant blossoms
Swell with grape on summer vines
Is the choice of sweetest juices
For a rich and warming wine

As with nature in her garden
So it is with all and one
Love may blossom in the spring time
But it blooms with summer sun

As with nature in her garden
Full with light the days are long
Softly evenings pass together
As we sing a summer song

As with nature in her garden
Full with light the days are long
Softly evenings pass together
As we sing a summer song
