Easier said than done
I should have known that the best was yet to come
As the object of my affection
Would I dare confess to you?
Fantasies that haunt me
Dreams of how our passions could be set free
Magic nights we'd share
I never knew you'd care
Quite like you said you did

You captured my heart

How many times did I try to say
It will be easier just to walk away
But at the mercy of my obsession
Didn't dare confess to you
How I long for you to want me
To my fantasies you hold the key
Passions that we'd share
I never knew you'd care quite like you said you did
You captured my heart

You dazzled me blind
Oh we're flying high
A perfect love to find

You captured my heart

Oh please say you want to stay with me forever
How I long to kiss your lovely face, pretty baby
Every night you haunt my dreams
There's no need to fantasize, you're here with me
Since I captured your heart

Captured captured my heart
Captured my heart

Captured captured my heart
Captured my heart

Captured captured my heart
Captured my heart

Captured captured my heart
Captured my heart
