You pull and push me
You never try to rush me
You make it easy to give it up
You make it hard to get enough

You make my heart beat strongly
You make the mood come on me
I ache for you when you're not here
I can't bear in when you get so near

You make me nervous, what can I do?
I guess, I'll have to settle up with you
Let's settle up on two

You want somethin' but you don't know what
Better make the most of what you've got
Don't go promisin' that you'll be true
I got used to hearing truth from you

Come over
Rock me in my chair
Come over
Move me everywhere

You run my motor
You make me think it over
We've got the rug from under us
Let's stay off it till we had enough

You tease my monkey
You make my knees feel funky
I ache for you when you're not here
An' I can't bear it when you get too near

You want somethin' but you don't know what
Better make the most of what you've got
Don't go promisin' that you'll be true
I got used to hearin' truth from you

Come over
Rock me in my chair
Would you do it now?

Come over
Oh, move me everywhere

Come over
You pull and push me
Rock me in my chair
You never try to rush me
Come over
You make it easy to give it up
Move me everywhere
