Oh I bet you're a virgin
'Til you let me
Oh I miss your kiss
When you are gone

I was young and foolish
Didn't know what I was doing
I didn't know I'd lost you
'Til you were gone

Oh I miss your loving
When you are gone

Now I gotta get up
Early in the morning
Find me another lover

I gotta get up
In the morning
Find me another lover

Now I've got to get up early
Every morning
'Cos the early bird
Always catches the worm

Now I've got to get up
Every morning
Got to make up for the
Lesson I learned

Got to find me a lover
Who won't run for cover
Find me a lover
Who won't run for cover

Got to get up
Early in the morning
(Early in the morning)
Find me another lover

Now I gotta get up

Early in the morning
(Early in the morning)
Find me another lover

I was young and foolish
Didn't know what I was doing
Didn't know I'd lost you
'Til you'd gone

She had a pretty face
Drove me wild
I even wanted her to
Have my child

Got to get up
Early in the morning
(Early in the morning)
Find me another lover

Now I gotta get up
Early in the morning
(Early in the morning)
Find me another lover, huh

Early in the morning
Find me another lover
Early in the morning
Find me another lover
Early in the morning

Early in the morning
Find me another lover
Early in the morning
Find me another lover

Early in the morning
Find me another lover
