

Robert Palmer "Keep In Touch"

Visit "[Keep In Touch](#)" on MotoLyrics.com

We got to keep in touch
We fit just like a glove, yeah
Between the two of us
There always will be love there

I don't mind if I don't hear a word from you in years
If you blew my candle out I would fall to tears
Knowin' your still lovin' makes me want it to be real
Darlin' you've just got to let me know the way you feel

We got to keep in touch
We fit just like a glove, yeah
Between the two of us
There always will be love there

I know when I'm kissin' you, you're easin' from behind
Too much solitude can make a body lose his mind
When I get that burnin' need to share what we have
found
I have faith that you will let me know you're still around

We got to keep in touch
We fit just like a glove, yeah
Between the two of us
There always will be love there

Keep in touch, girl
Keep in touch, girl
Keep in touch, girl
