Hey hey take it from me she's a masterpiece  
She ought to have her own show  
Oh stone cold  
Hey hey take it from me she's a masterpiece  
Stone cold in love with you  
Could you be ? or Van Gough

You're a work of art, my darlin'  
You are the one I adore  
You choose the role to star in  
You've got the part - I'm all yours

My heart's in perpetual motion  
When you make love with me  
Beats so hard we reach an explosion  
Of sensuality

You are poetry - I read your lips  
They say just kiss me darling  
The way you move - the way you speak  
I got to have you cos I'm stone cold

Hey hey take it from me she's a masterpiece  
stone cold in love with you  
She ought to have her own show  
Oh stone cold  
Hey hey take it from me she's a masterpiece  
Stone cold in love with you  
Could you be ? or Van Gough

You want it all - you got it  
You take the cake coz you wrote the recipe  
You hit the mark  
Spot on it

We make the grade coz we got the chemistry

Surfin' high on the waves of emotion  
When you make love with me  
8 miles high and deep as the ocean  
That's how big love should be

You're a masterpiece - you're made for me

I just couldn't live without you  
Say what you want - say what you need  
I'll get it for you cos I'm stone cold

Hey hey take it from me she's a masterpiece  
I'm stone cold in love with you  
She ought to have her own show  
Well stone cold  
Hey hey take it from me she's a masterpiece  
I'm stone cold in love with you  
Could you be ? or Van Gough

My heart's in perpetual motion  
When you make love with me  
Beats so hard we reach an explosion  
Of sensuality

You are poetry - I read your lips  
They say just kiss me darling  
The way you move - the way you speak  
I got to have you cos I'm stone cold

Hey hey take it from me she's a masterpiece  
Stone cold in love with you  
She ought to have her own show  
Babe I'm stone cold  
Hey hey take it from me she's a masterpiece  
Stone cold in love with you  
Could you be ? or Van Gough

Stone cold  
Hey hey take it from me she's a masterpiece  
Stone cold in love with you  
She ought to have her own show  
Babe I'm stone cold  
Hey hey take it from me she's a masterpiece  
Stone cold in love with you  
Could you be ? or Van Gough
