Away  
How hard can it be away?  
I promise I'll be just fine  
Avoiding the paths you take

You have to try to make this easy  
You have to try for me  
Sometimes I'm scared that things could be  
So much better than this  
What's best is not right  
Sometimes I wish that we could be  
So much closer than this  
But I won't look up when you walk away

Away  
Just tell me you'll stay away  
It's so hard to act surprised  
You never look down when I'm gone

You have to try to make this easy  
You have to try for me  
Sometimes I'm scared that things could be  
So much better than this  
What's best is not right  
Sometimes I wish that we could be  
So much closer than this  
But I won't look up when you walk away
