

Robert Plant "Little Hands"

Visit "[Little Hands](#)" on MotoLyrics.com

Little hands clappin', children are laughin'
Little hands clappin' all over the world
Piper is pipin', drummers are drummin'
Little hands clappin' all over the world

Little hands clappin', children are sharin'
Little loves lovin' all boys and all girls
Children are singin', truths that they're bringin'
Freedom is ringin' all over the world

Come let us meet them
Yes we will greet them

Little hands clappin', children are carin'
Piper is callin' all over the world
Out in the street now, sick that you meet now
How many friends do you call your own?

Come let us meet them
Yes we will greet them

Little hands clappin', truth they are graspin'
A world with no pain for one and all
Children are learnin', their souls they are yearnin'
A nice place to play and no place to fall

Come let us meet them
Yes we will greet them
