Time and again  
I see you walking down the street  
Over and over  
Just like before  
Once in a while you stop and say hello to me  
Just like you used to do before  
Time and again  
It's like we were in love and then  
Over and over  
Nobody keeping score  
Once in a while I think you notice but I smile  
That love still lingers in my eyes  
Can't go - Can't go wrong  
It lingers on - It lingers on  
Day after day  
I turn it over in my mind  
Dream after dream  
It's hard to tell you how I find  
Out of the blue  
I'm suddenly so close to you  
Despite the years that I've been gone  
Will you stop, will you wait a minute  
Please remember  
Can you stop, just give me one minute to explain  
I will not cause a fuss,  
I will not rock the... [\*boat]  
Believe me darlin'  
Oooo what is, what was  
It's all the same
