Oh my my, little white lie  
I swear I'm gonna make it right this time

It's like a radio turning way down low  
Telling me things I do not know I know

Tonight you will be mine  
Tonight the monkey dies  
Tonight you will be mine  
Tonight the monkey dies

Now who's to blame, we used to be the same  
Now you won't let me speak your name, what a shame

It's a suicide, shut up and drive  
We're never gonna make the light but it's alright

Cos tonight you will be mine  
Tonight the monkey dies  
Tonight you will be mine  
Tonight the monkey dies

Tonight you will be mine  
Tonight the monkey dies  
Tonight you will be mine  
Tonight the monkey dies

Oh, tonight you will be mine  
Tonight the monkey dies
