One for love I can't resist
Two for your pretty brown eyes Crazy like this
Three for the stars Around my head Four for the way
you smile
Crazy instead That's why, oh you're all mine
Five for the fire The power of love
Six for the glory From up above Thats why, oh that's
why
It takes a One Heart, One Love N-n-now baby love one
another
One dream, one kiss
Now come on now baby don't you treat me like this
Seven songs
That never change Eight for the heart of gold
Nine... That's why, oh all mine One heart, just one love

N-now baby love one another One dream, one kiss
Come on now baby don't you treat me like this
That's why, oh, oh that's why
Yes that's why, oh, baby that's why
Ooh, yeah, that's why, oh that's why
It's one love, one love, one love, one love, one love Oh-
ah
